

# How to understand the model code

Please refer the information below to understand the product model code for electric projection screen and fixed frame projection screen. The product model code includes these specifications, which are “diagonal size” , “panel color” , “power source voltage” , “power plug type” .

■ **Electric projection screen**

**TP - 080 H M - W 1 A**

Screen type      Diagonal size      Aspect ratio      Mask      Panel color      Version Number for manufacturing      Power Plug and voltage

H:16:9  
V: 4:3  
W: 16:10  
L: 2.35:1

M:Mask  
N: Non-masked

W: White  
K:Black

Please refer a plug and voltage table.

Several models do not have mask and color options.

## Plug and Voltage table

CODE	Plug Type	Voltage
A	A type plug	100-120V
B	BF type plug	220-240V
C	A type plug	220-240V
D	C type plug	220-240V

■ **Fixed frame projection screen**

**PX - 100 H - A**

Screen type      Diagonal size      Aspect ratio      Version Number for manufacturing

H:16:9  
V: 4:3  
W: 16:10  
L: 2.35:1
