WF stands for the White mat Fabric. Since the first generation of Pure Mat was founded in 2000, OS has earned a tremendous reputation for the beautiful quality of images in the home theater market. In the seven generations afterward, OS has been improving quality according to the evolution of the projectors. Today, flame retardant screen is materialized and become possible to introduce it to public facilities.

- WF-Pro does not use PVC.
- WF-Pro uses fabric base and topcoat technology that delivers the 4K high-definition image uniformly and beautiful manner.
- The random fabric makes smooth surface and does not feel moiré.
- The white topcoat truly reproduces the image.
