

An electric screen with a steel case including necessary metal fitting, which is easily installed and ideal for the first buy, has a high cost performance.

- A symmetry structure easily makes focus the center of a screen.
- Easily peel off a central mark after installation.
- A mounting bracket and a cap are designed as an integrated side cap and produced by resin molding
- A circuit board is stored in a case.
- An attachable bracket by 3/8 bolt is adapted as a standard equipment.
